## ABOUT US

Aqua Solution India was incorporated in the year 2014 and has become the leading Sales and Service Dealer, Distributor, Supplier and Manufacturer of a wide range of Water Purifiers.

Mr. Satyendra Singh (Proprietor) has played a very important role in the success of Aqua Solution India. His knowledge of Raw Materials and Technical guidance for service engineers has helped us to grow in our industry. Mr. Singh is well-versed with the recent technologies prevailing in the market and how the team's efforts are motivated to achieve the goals.

We are based out of the City of Mumbai, Maharashtra where we repair and build water purifiers for the purest, healthiest & best tasting water. We have 12+ years of industry experience and a precious customer base in India. Our team has grown over the years and currently we employ more than 80 - 100 employees.

## COMPANY PROFILE

### Mission

Aqua Solution India shall be committed to put the best interests of our customers first and take great care of the trust that our customers place in us.

### Vision

Aqua Solution India's 2020 vision is to be the best economical and environmentally friendly, same day service provider of all brands of water purifier across PAN-India.

### Core Values

Aqua Solution India's values are the key driving force those help us align the organisation towards customer sensitivity and deliver beyond customer's expectation. They encompass our Culture, Attitude, Behaviour, Action and Delivery Promise. These corporate values will thrust the organisation to achieve sustainable heights in business in the long run.

# OUR BRANDS

Over the years, we have expanded our range of brands and as of today are having a portfolio consisting of the biggest brands available in the country. We have partnered with these brands because we have a common analogy i.e. for making clean and healthy water available to everyone.

We are thorough supporters of the Swachh Bharat Mission, Make In India & the Digital India campaign.

# COMMERCIAL PRODUCTS

## Commercial RO Water Purifier System

The commercial RO systems are used for the school, office, mall, cinema, hotel, restaurant, hospital and many more. People are increasingly reporting about the bad quality of water coming through tap water. This is the reason many businesses are installing commercial water purifiers. To buy a purifier, keep in mind - what kind of water is available in your area and will it be suitable for the filtering system. With some research, you can get the best commercial RO purifier system.

## Benefits

- Removes harmful impurities & microorganisms
- Enhances taste of water
- Beverages & Food tastes better due to purity of water
- Huge savings from bottle water usage
- Good quality water for workers
- Assurance of Aqua Solution India's trusted service backup with all Commercial & Industrial water systems.

# COMMERCIAL PRODUCTS

## Industrial RO Water Purifier System

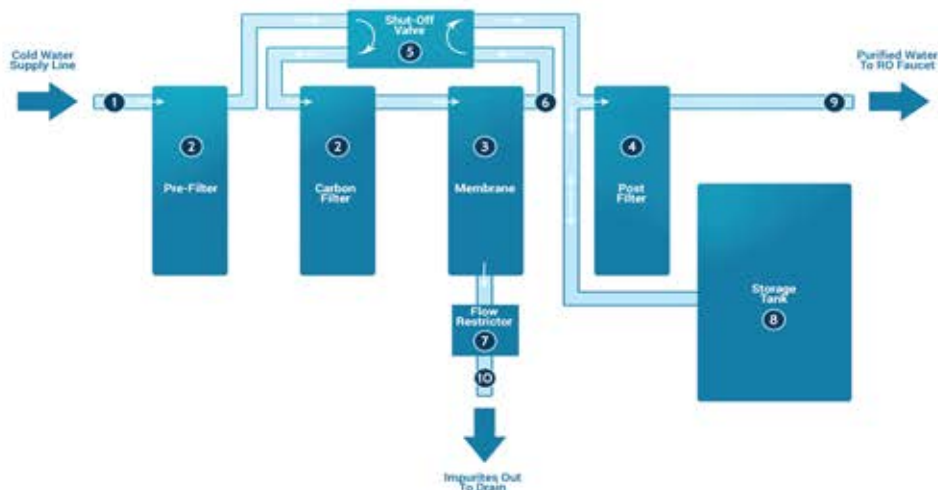

Industrial RO system is normally used for large amounts of people. The plant work is a simple process - water passes through a membrane which filters contaminants from the water. This plant can easily filter gallons of water per day. It is ideal for plant & factory setups.

This system is becoming very famous nowadays for industrial use. The best industrial filtering system allows you to meet all your industrial needs. These plants are also power saving and less time consuming and at the same time ensure safe, clean, and healthy drinking water for everyone involved. We undertake setup of 50, 100, 500, 1000 lph plants.

You need to service your RO system in every two or three months, which includes changes of filter and membrane and cleaning along with clean water storage tank or install a water purifier system. If your RO is not working and/or you need help with RO repair maintenance, RO filter change, RO membrane change in anywhere in India, we offer the Best RO Water Purifier and filtering service across India.
